Special Edition Powtech

September 2008

New: Quick Release Seals

Lindor now offers an unique ultra high sanitary and hygienic solution for replacements of seals.

The QRS option enables replacement of seals by a single operator in a very short time. For ultra high sanitary or hygienic requirements it is now possible to exchange seals for off line cleaning/disinfection. Downtime due to replacement of seals can be kept to a minimum.

This feature can be delivered for single as well as for double air purged seal constructions. Most already installed Lindor mixers (product range Lindor L500 to L2300) can be retrofitted with this option.

Lindor at Powtech

We will introduce the QRS option at the Powtech in Nurnberg from September 30 - October 3. **Visit our new stand in Hall 7 Stand 420.** For tickets, please email us at:

Several hundred mixers installed

As you may know Lindor has been selling its 'gentle touch' mixers for the last 20 years. The mixers range in size from 10 litres (Lindor L10) to 25000 litres (Lindor L25000). Several hundred mixers have been installed world wide for various applications and always for fragile, sensitive and precious products like:

Food:

- . Tea
- . Breakfast Cereals
- . Instant Drinks
- . Instant Soups & Sauces
- . Baby Food
- . Nuts & Dried Fruits
- . Dried Vegetables & Pulses

Chemical:

- . Detergents
- . Engineering Plastics
- . Polymers
- . Compounds
- . Fine Chemicals
(e.g. SAP and Catalysts)
- . Metal Salts
- . Metal Powders

Latest developments

Besides the QRS option we have developed three new major features for our gentle touch

mixers@lindor.nl

If you have any questions, please contact our sales team at + 31 (0)78 6550655 and ask for [Frans Kortman](#) or [Bastiaan Soeteman](#)

mixers:

- 1. Continuous Mixing**
